HOUSE & GARDEN NUTRIENTS

PREMIUM NUTRIENTS & ADDITIVES

Specialty Items

Soil A/B provides balanced nutrition for enriched soils, and contains essential nutrients including a significant amount of calcium.

Aqua Flakes A&B provides the highest quality, fully soluble nutrients designed specifically for recirculating hydroponic applications. Perfect for ebb and flow, DWC, aeroponics, and any type of rockwool. Also use Aqua Flakes in inert peat mixes for best results.

Cocos A&B is formulated to provide the perfect ratio of nutrients while taking into account the cation-exchange capacity of coir. Coco coir as a medium has unique properties that are distinct from soils and hydroponic media

Bio 1-Component Soil enables a grower to customize the level of calcium in their soils. Also use it for soils that are heavy in lime.

Roots Excelerator Gold
For soil, coco, and peat applications. The world famous Roots Excelerator with its well kept secret formula, is used for cuttings, seedlings, and plants in the vegetative and early flowering stages.

Roots Excelerator Silver
Classic formula that is compatible in hydroponic and recirculating systems.

Drip Clean
For use in all grow systems including hydro, coco, soil, and peat.

Multi Zen
This unique formulation helps to achieve maximum growth with every harvest.

Algen Extract
A premium Norwegian Sea Kelp blend derived by way of "cold press" technology which helps preserve its quality. Only use during the vegetative stage. Discontinue once the plants are in the flower.

Amino Treatment
Helps to strengthen the plant and build a healthy foundation for later in flowering.

Magic Green
A foliar spray used to increase vitality and help the plants get what they need for a successful flowering period.

Bud-XL
Use Bud XL in the finishing weeks of flowering to improve the plants' natural flavors in the fruit sets.

Top Shooter
Top Shooter is the liquid version of Shooting Powder for growers that prefer liquids to powders.

Top Booster
Top Booster provides nutrients needed for ripening and helps set the stage for Bud XL and Shooting Powder.

Shooting Powder
Shooting Powder contains pH-balanced levels of premium grade proprietary ingredients including potassium and phosphorous to enhance yields.

PH Stabilizer
PH Osmosis / Stabilizer is effective at stabilizing reverse osmosis (RO) water.

Nitrogen Boost
Use this product to customize a plant's level of nitrogen and keep everything green. Particular strains and/or longer vegetative times will utilize this product.

Magnesium Boost
Contains both magnesium and nitrogen, the central components of chlorophyll, the plant pigment that absorbs light and harbors photosynthesis. Use as an alternative to Cal-Mag.

Rhizo Force
A granular slow-release product that enriches soil, coco and peat-based media with essential ingredients.
